Hi,

My name is Varian Salters. I hire my own staff. They help me with shopping, Banking, Doctor appt. and Cleaning my House I don't think this executive order 10 Bill # 5433 is right. No one ask people who hire there own staff what they thought before making it an executive order. This will hurt a lot of people because If they don't have a lot of money in there budget to pay wages and or Salaries set by the union they to they mite have to cut back on the number of hours they have to pay the staff or they mite have. to fire that staff. I am happy with the current way it is and don't agree with he bill # 5433 I feel like this is a bad bill and does not support self determination in the way we have it now. *I don't think this Bill will make life better. Thank You for taking your time to listen to me today.*

Sincerely,

Varian Salters
